

FAASTeam presents:

# **Monthly IMC Club Meeting - Snowplows on the Runway**

You are flying into a non-towered airport at night. When you announce your arrival on the CTAF, the UNICOM says to hold for a while to allow snowplows to finish clearing the runway. Where do you hold? How long do you hold? What altitude? How to get there?

Let's discuss alternatives and options IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For IFR pilots, IFR students and anyone thinking about flying in the clouds. Bring iPad or other device to view instrument procedures. Click on the link below and register TODAY.

## Event Details

**Wed, Jan 11, 2023 - 19:00 EST**
